Jeremy Johnson

SKILLS

- Writing new quality features for websites and apps.
- Debugging code quickly and efficiently.
- Learning quickly and taking the initiative.

EXPERIENCE

Speak4, Remote – *Software Engineer*

MARCH 2022 – PRESENT

- Lead, design, and develop new features independently for a rapidly growing SaaS startup utilizing PHP, Node.js, CSS, JavaScript, and more.
- Build out features that resulted in a 20% sales close rate increase.
- Replace existing code with serverless architecture to increase server load capacity by over 1000%.
- Integrate with Zapier connecting client data with over 5000 different apps like Salesforce and Iterable.
- Create automated scrapers for 20 states in C# to pull legislator and committee data.
- Represent development team during product feature webinar and assist in client onboardings.

Vanderhall Motor Works, Provo UT – *PHP Developer*

SEPTEMBER 2021 – MARCH 2022

- As the company's only developer: administered an AWS EC2 Linux server, maintained a Swift iOS app, created an Android app, and took responsibility for all new development/maintenance for the company website/ERP.
- Improved report speeds by up to 375%.
- Built custom integrations for Twitter, Facebook, LinkedIn, YouTube, Instagram, UPS, and Intuit Quickbooks.

EDUCATION

BYU-Idaho, Rexburg ID – *B.S. Information Technology*

SEPTEMBER 2018 – JULY 2021, 3.7 GPA

AWARDS

Campaign Tech's Best Advocacy Platform – 2022
